Help Them **Relieve**
Their **Digestive Discomfort!**

Zymnet[®]

Pet Liquid

A Natural Digestive Stimulant And Appetizer

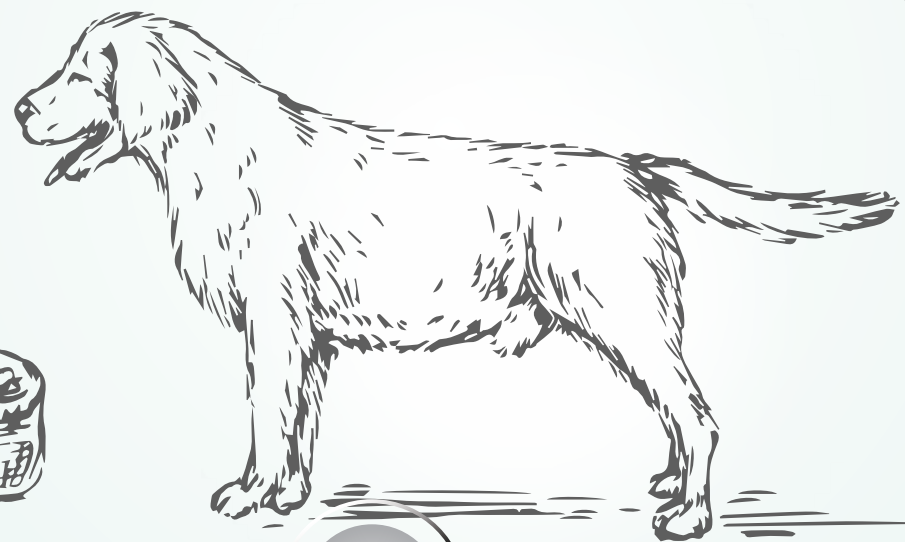

Improves Digestion and Stimulates Appetite¹

**Chitrak (*Plumbago zeylanica*),
Ginger (*Zingiber officinale*)**

- Sensitizes oral receptors
- Helps in stimulating appetite by regulating GIT secretions

Relieves Nausea and Improves Gastric Tone and Motility⁴

Ginger (*Zingiber officinale*)

Alleviates nausea and vomiting by:

- 5-HT receptor antagonism
- Anti inflammatory properties
- Modulates gastrointestinal motility

Antispasmodic Activity⁵

Pudina (*Mentha spicata*)

Contributes various active constituents and relaxes the gastrointestinal smooth muscle by reducing the calcium influx in both the large intestine and jejunum

Relieves Flatulence²

**Jeera (*Cuminum cyminum*),
Badi ilayachi (*Amomum subulatum*)**

They are carminative, normalize the intestinal microflora by regularizing H₂S and CO₂ produced by micro-organisms in the digestive tract, thus relieving flatulence

Protects Gastric Mucosa³

**Dhania (*Coriandrum sativum*),
Lemon (*Citrus limon*)**

Protect against damage of gastric tissue by forming protective layer of phyto-constituents

A Polyherbal Formulation For Improving The Secretion Of Digestive Enzymes And Maintaining Digestive Health

GIT: Gastrointestinal Tract 5-HT3: Serotonin Stimulant and Appetizer
